#### AS 9120 A to AS 9120 B - QMS Transition Instructions / Checklist

AS 9120	Changes to the existing AS 9120 Rev A	Reference	Changes in existing documentation	Upgrade	Checklist
Rev B Clause	Quality System	document		Assigned to:	Date Completed
All	The SAE international Aerospace standard AS 9120 Rev B is restructured and contains 10 sections or clauses numbered 1 through 10. The standard is revised to incorporate the new clause structure and content of ISO 9001:2015. In addition, aviation, space, and defense(ASD) industry requirements, definitions, and notes are included.	AS 9120 B	The requirement clauses of the new standard are the Clause 4 through Clause 10. Your company needs to become familiar with the new structure and the changes and subsequently upgrade the Quality Management System (QMS).		
All	While the specific requirement for a quality manual is not in AS 9120 B, the standard requires that Documented Information be maintained for the QMS.	Manual	Replace / rework your existing Quality Manual with a condensed version that will introduce the QMS. A quality manual is not included as a requirement in clause 7.5.1 of AS 9120 B; however, the note in 4.4.2 suggests that a quality manual can be used to compile into a single source, the documented information for the QMS.		
	In AS 9120 A, the requirement for a Quality Manual was in clause 4.2.2.	Manual	<ul> <li>In the condensed manual include sections for:</li> <li>Scope of the Quality Management System (QMS),</li> <li>Distribution Control List,</li> <li>Revision Status,</li> <li>Quality Policy and Objective, Strategic Direction,</li> <li>Organization Chart,</li> <li>Company Background - Products and Services,</li> <li>Process Flow Diagram,</li> <li>List of Documented Information,</li> <li>Records Documentation Matrix.</li> </ul>		
	The specific requirement for documented procedures is not in AS 9120 B; however documented information is required to plan, establish, implement, and maintain the QMS processes.	Documented information	The QMS documented information may be presented in any suitable format such as in a method, an instruction, a system, a process, a procedure, a manual, etc. You will need to add / replace / rework your QMS

### AS 9120 A to AS 9120 B - QMS Transition Instructions / Checklist

	In AS 9120 A, the requirement for control of documents was included in 4.2.3, and the requirement for control of records was in 4.2.4.		procedures to incorporate the AS 9120 B requirements. An early consideration is the development of a process for the control of documented information. Replace / rework the documented procedures for Control of Documents and Control of Records with a procedure, (such as P-750) for Documented Information and include it in section 7.5.		
4	understanding the needs and expectations	of interested par gement System	context of the organization, (1) understanding the organization. Together they require that you determine the issue (QMS). In addition, the scope of the QMS and the QMS	s and requiremen	ts that can
4	Clause 4, Context of the Organization is a new requirement in AS 9120 B, and replaces clause 4 Quality management system in AS 9120 A.	Documented information	Your company must determine the issues and requirements that can impact on the planning of the QMS and that can affect the ability to achieve the intended results of the QMS. For typical guidance, see procedure <u>P-400</u> for Organizational context and worksheet, <u>F-440-002</u> to identify issues and requirements.		
4.1	Documented information for the QMS sets the stage for an understanding of the requirements and of the international standard.	Procedure	Document the information (in a document P-400, Organizational Context) to outline the process to understand and determine the internal and external issues that are relevant to the QMS.		
4.2	A stakeholder approach provides for an understanding of the requirements of interested parties.		Include (in a document P-400) the process to understand and determine the needs and expectations of interested parties.		
4.3	In AS 9120 A, the scope of the QMS was required to be included in a quality manual per par 4.2.2.		Include (in a document P-400) the process to determine the scope of the QMS. Refer to 4.3 a) thru c) and consider the internal and external issues, the requirements of interested parties, and your products and services.		
4.3	In AS 9120 A, the application and exclusion of requirements were included in par 1.2. Excluded were clause 7, design and		Include justifications for requirements of the standard that do not apply to the scope of the QMS. Note that conformity to AS 9120 B can only be claimed if the requirements determined to be not
